Music Performances

The Choir and the Band will be performing in the Central Covered Area between 5 and 5.30pm

In the Prep Year Areas

Jenny Moran, Robbie Buckley, Abby Meyer, Glenys Wilshire, Kaye Spierings and Sandy Thomas

Wow, how far our Prep kids have come. Come see some of the journey we've taken, our work in the gardens, our learning about marine environments, about space, about recycling.... We have lots to show.... Come take some time.

In the Year 1 Classrooms

Anita Clark, Kim Kavanagh, Leona Burkett and Daman Weir
'What's life like on the farm?'

Come visit our farm! Explore the virtual classroom. We will have much of our work on display. Come read stories of our excursion to the 'Animal Farm'.

In the Year 1/2 and Year 2 Classrooms

Megan Durrant, Chrissy Zaremba, Deb Hood and Shalene Dorr
'Why do camels have humps?'

Come and visit a range of biomes to learn about the adaptations of some very interesting animals. We will also be sharing our photos from our excursion to Australia Zoo as well as our art this term.

Susan Howard and Sandy Gray
'How can I be a scientist?'

Toys are definitely us! Come see our Year 2 toy designers at work - see their toy designs and hear the explanations of how they show science at work. Our scientists will gladly explain their toy production process. While you're here, have a look at some of our great photos from our visit from CSIRO—Labs on Legs.

In the Year 3 Classrooms

Jan Fuller, Laura Morris and Julie Nash
'Why is water so important?'

Come see all that we have learnt about water. What lives in it, what we use it for, you name it! Come underwater with us, without getting your tootsies wet! While you're here, check out our virtual classroom.

Therese Otago & Asha Butler
'How does my garden grow?'

You think those people on those home maker shows know a lot about gardens! Well come try us out. Stand back Jamie and John, the Year 3's are on the job. Come and admire our artwork and view our power points!

In the Year 3/4 and Year 4 Classrooms

Steve Harvey, Kristen Porter and Donna Green
'Who wants to be a millionaire?'

Come and support our mini businesses operating in the Senior Covered Area. We have a range of companies selling items including lucky dips, hair accessories, pot plants, bracelets, lolly kebabs, hackey sacks and lots more!

Cheryle Poder and Jim Simpson
'How can we Reduce, Re-use and Recycle?'

These 2 classes will be showing their recycled wares and all the great learning they have undertaken this term to be protectors of the future. Join them to listen to their songs and poems.

Carol Cahill, Tracey Birchall, Jenny Meninga and Sue Martin
'What makes it work?'

Have you ever wondered how something worked? Well, wonder no more—come to our classes and one of our talented scientists will gladly give you the answers that you have been looking for. Come see our energy designs and experiments.

In the Year 5 Classrooms

Joh Dam and Bob Rice
'What were the milestones of Australia's colonial history?'

Come and view our Photo Stories from our excursions to St Helena Island and the Prophet Gold Mine. Join in with us for some bush dancing throughout the evening.

Peter Somerville, Teresa Suszko and Chris Cook
'What is our place in space?'

To venture to the far reaches of the galaxy and bravely go where no others have gone! Come see our wonderful 'table projects' about space phenomena. While you're here be entertained by our terrific Space Photo Stories - book your place on the shuttle now!

In Year 6 Classrooms

Suzanne Taylor and Tim Bell
'What lies beyond Australia?'

Come ride the 'Rollercoaster Around the World' with terrific displays that will get your travel bug wiggling!

Susan Tagny-Howell, Kirsten Durbidge and Alison Dobson
'How can we cope with disaster?'

Do you know what to do in an emergency? Come along and view our Photo Stories which provide great precautionary advice about a range of disasters.

Dave Kingston, Kristen Porter and Craig Hughey
'Hey professor, why is it so?'

So, do you have a science question? Come try us out! Come view the great science video clips that we have created. You'll be happy to see that we are not all 'crazy scientists'.

Don't forget the book fair in the Library
Lots of books for sale!
