

Vision and Values

Our team vision and values for 2008.

Our Vision: To Participate, Create, Innovate and Celebrate!

Our Values:

- To empower all students (P-12) as creators and participants within and across the Arts syllabus.
- To develop a culture of celebration using the Arts as a vehicle for recognising and celebrating student success and providing opportunities for performance.
- To make real links between the Arts and other disciplines of study within the college and highlight the value of learning and creating through the Arts.
- To establish links across the campuses, without site agencies and within the community to further the study of the Arts for all students and staff.
- To support the internationalisation of Chancellor State College through the provision of opportunities to enhance and build cultural understanding and an awareness of a global community.
