Student Resource Scheme (SRS) Handbook

Prep - Year 12

CARE COURTESY COOPERATION CHALLENGE COMMITMENT

A note from the Executive Principal

In accordance with the Education (General Provisions) Act 2006, the cost of providing instruction, administration and facilities for the education of students enrolled at State schools who are Australian citizens or permanent residents, or children of Australian citizens or permanent residents, is met by the State.

Parents however are directly responsible for providing textbooks and other resources for their children while attending school.

In recognition that these costs can be high, Chancellor State College provides an optional service to assist parents with the cost of these educational resources, known as a Student Resource Scheme (SRS). The college SRS incorporates resources, texts and consumables.

Participation in the college Student Resource Scheme is strongly encouraged. The scheme provides outstanding value for money as the college purchases in bulk to secure the best prices which, in turn, enables the SRS fees to be kept as low as possible. Participation in the scheme provides access to textbooks, resources and other resources and consumables.

All full-time and part-time students from Years 7 to 12 (with the exception of some international students) are entitled to a Textbook and Resource Allowance to offset the cost of textbooks and education resources. For parents who choose to participate in the SRS, the allowance is already provided for in the SRS fees. Parents who choose not to participate in the SRS however, are entitled to have the allowance paid to them directly.

Should a family choose not to participate in the SRS, the parent/caregiver is responsible for purchasing and providing those resources for their child whilst they are a student at Chancellor State College.

The purpose of this document is to outline the required resources for each year level and/or secondary school subject. Indicative retail prices are also included to assist parents/caregivers in making an informed choice, should they be considering 'not participating' in the SRS.

We trust that the information provided in this document, affords parents/caregivers the opportunity to make an informed choice that best meets the needs of their family.

Regards

Brad Roberts
Executive Principal
