

# Year 1 Term 2 Learning

## English

### In My Opinion

This term we will be learning how to express our opinion and share preferences, giving reasons to support our opinions with topic specific vocabulary. We will use simple sentences to help express our ideas in both written and spoken modes.

## Mathematics

### Maths Is All Around Us

In Term 2 we will explore numbers to 70. We will understand that numbers can be shown in different ways. A major focus will be on representing and solving simple addition and subtraction problems using a range of strategies. We will also be giving and following directions to familiar locations.

## Science and Technology

### Material Madness

We will learn about different materials and their properties and that they have different purposes. This will help us to describe materials and make physical changes to them. We will also learn to draw labelled diagrams and share our predictions. We will then use our knowledge of materials and properties from Science to design, construct and test a boat to see if it sinks or floats!

## HASS

### My Changing World

We will continue on with our learning from Term 1 to look at the features of different places, compare the features from past to present, and describe direction and location. Our unit includes an excursion to Windmill Park.

## HPE

### Running on Emotions

In this unit, students will apply fundamental movement skills in modified athletic events to help them run faster, jump longer, jump higher, and throw further. Students will participate in fun, non-competitive activities at the College's Annual Sports Day. Students will also recognise their own emotions and understand how they affect others.

## The Arts

### Music

Our focus in the music room this semester is learning how to listen. We are matching pitch with our voices and learning to sing confidently on our own and with the group. We are learning about the difference between beat and rhythm and showing that we can play in time and echo patterns.

### Visual Art

This term we are continuing our study of form drawing with oil pastels, and commencing our journey with watercolour. We are also discovering more influential artists of our time, and critiquing their artworks with feedback. We will be creating a mixed media art piece this term; a combination of oil pastels and watercolour.
