

Year 3 Term 2 Learning

English

Persuasive Texts

Students will learn about persuasive techniques to write to convince others about a range of topics. They will also learn about persuasive speeches. Students will then give a short speech to convince their peers about who in the school deserves an award.

HASS

Volunteers

Students will learn about how important volunteers are in our community. They will then decide on a volunteer who works at our school who deserves an award for their hard work.

Mathematics

- Students will continue working with numbers up to 9,999. They will represent and partition numbers in standard and non-standard ways using Part-Part-Whole.
- Fractions – Students will learn about basic fractions as part of a whole and also as part of a set of objects.
- Students will learn about the relationship between addition and subtraction and recognise matching stories for these.
- Students will learn about what makes a number odd or even
- Money – Students will look at representing amounts in different ways and adding small amounts of money.

Science

Hot Stuff

Students will learn about heat energy and heat transfer. They will conduct fair tests and learn about insulators and conductors.

HPE

On Your Marks

This term, students will implement different athletic techniques to improve their running, jumping and throwing. These skills will help prepare them for participation in non-competitive Intermediate Sport's Day.

The Arts

Dance

Students will work collaboratively with others to learn about the elements of dance and to choreograph a short dance using these elements to tell a short story or give a message.

Music

Instruments of the Orchestra

This semester the year three students are learning about instruments of the orchestra. They are learning to be able to recognise the instruments visually and to recognise them by their unique sound. The students are learning how the orchestra is divided up into families and that each family produces sound in a different way. They are also working on playing some simple melodies on the keyboards and buddy checking our playing partner to make sure they are using good technique and playing the melody and rhythm accurately.

Language

Let's Learn Japanese

This term, students will study the unit 'Let's Introduce Ourselves'. They will learn to introduce themselves in Japanese. Students also started to learn about the similarities and differences between English and Japanese.
