Our school strategies are on track to meet or exceed our targets

During 2015, we have focused on maximising the benefits of this funding for our students. After reviewing our Great Results Guarantee agreement, it is clear that we are on track to meet or exceed our targeted student outcomes. We continue to implement our strategies to ensure that every student succeeds.

Strategies implemented include:

- Provide high quality, targeted literacy and numeracy professional development to our teaching staff to ensure teachers are able to understand the content descriptors and achievement standards of the Australian Curriculum.
- Develop collaborative data collection and interpretation strategies to support evidence based planning to enhance teaching strategies in the areas of reading, spelling and numeracy.
- Implementation of a revised Prep Screener and data collection paired with Prep support packs distributed to parents
- Deliver high quality professional development experiences to support staff and teacher aides to more effectively support student learning in numeracy and guided reading.
- Embed processes and protocols of sharing effective classroom practice (such as Professional Learning Communities) to develop feedback and ongoing professional learning amongst teaching staff.
- Appoint a Head of Department U3B’s to improve U2B data
- Develop and implement an explicit assessment regime to drive lift performance for all students

Results recorded at the end of the 2015 school year include:

- The percentage of students in the NAPLAN Upper 2 Bands of Year 3 Reading has increased from 36.8% to 47.5%.
