

Year 1 Term 2

English

This is how we...

Have you read the instructions for how to play a board game? Have you ever followed a recipe to bake some biscuits? Have you built Lego using the step by step guide? They are all **Procedures**. In Term 2, we will be identifying the key features of procedures, and then writing some of our own.

Science & Technology

Sensory Overload!

Did you know that scientists use the 5 senses to find out about the world around us? This term we will be looking at how sound and light can be sensed and how they are produced by a range of sources. How do you think we could change light and sound?

Art

Our Art Gallery

Our artwork continues on into this term as well, we will be reflecting on different pieces of art and how our artwork is the same and different to others.

Mathematics

Maths is All Around Us!

In Term 2 we will explore numbers to 70. We will understand that numbers to 70 can be shown in different ways. We will also be giving and following directions to familiar locations.

HASS

My Changing World.

We will continue on with our learning from Term 1 to look at the features of different places, including an excursion to Windmill Park!

From The Year 1 Team,

Miss Liz

Mrs Haas

Mrs Flynn

Ms Naismith

Miss Corbet

Ms Burchmann
